Stock No	<a href="#">DV1171</a>
Model	P100 c/w Blower
Year of Manufacture	2011
Serial	1037 - P100B A/2411
Work Envelope (WxDxH mm)	1000 x 1250 x 200 (450)
Process Stages	3 Stage. Wash, Rinse and Blow Dry
Other Info	All Stainless steel construction
Weight (kgs)	1500 approx
External Dimensions (WxDxH mm)	4800 x 1560 x 2900

### Description

#### IWM (Industrial Washing Machines) pallet washer and drier

An Industrial Washing Machines Ltd Industrial and commercial Stainless steel pallet washing and rinsing

machine, with variable speed conveyor, and air knife blow off drying final stage.

The Industrial Washing Machines Ltd pallet washer offers a high flow heated re-circulated wash section and final fresh water rinse to drain cleaning system. The machine was designed for all plastic or aluminium pallets and baskets up to a maximum size of 1,000 mm wide, x 1,200 mm length x 200 mm deep, with a throughput of up to 100 units per hour. Although primarily designed as a pallet wash the guide rails and jetting arms can be adjusted up to a maximum of 450mm wide, allowing totes and baskets to also be processed.

#### Benefits:

- Streamlined, robust design with easy access to all areas for routine cleaning and maintenance
- Hygienic design complies with all UK and EU standards, and all are CE assessed and certified
- Cost efficient, dependable and effective washing
- Fully assembled and tested prior to dispatch
- Compact footprint for minimal operation space

#### Features:

- Stainless steel T304/316 construction
- Adjustable levelling feet
- Sustained jetting with hot water and detergent recirculated from a heated tank followed by a fresh water rinse Bayonet type wash and rinse nozzles for quick and easy servicing by hand
- Digitally controlled electric heating.
- Electronic water level control with built in low level protection for pumps and heating systems
- Separate fresh water rinse to drain
- Solenoid controlled water level with low level protection
- Stainless steel control panel to IP66 standard complete with CAT IV 24V DC control and safety circuits
- Stainless steel pump, filters and jet system
- Twin fan Airknife water removal drying system
- Detergent and sanitiser dosing systems to suit all applications
- Lockable detergent cage
- Stainless Steel Extract fan
- One man operation

#### Optional extras

- Recirculating rinse tank
- Upgraded filter capacity housing
